

Alief ISD Education Foundation  
2014 Innovative Education Grant Request for Proposal

---

**ALIEF ISD EDUCATION FOUNDATION GRANT EVALUATION FORM**

**Due June 5, 2015**

(Please Type)

Title of Grant Design a High school for 2015

School: AECHS    Subject Area: PreAP Geometry

Individual Submitting Evaluation: Cerlito Salarda

To ensure that Alief ISD Education Foundation Innovative grant funds continue to enhance, promote, and augment classroom instruction as well as address unique needs of our school campuses. Please answer the following question:

*Was this grant project worthwhile?*

Yes indeed, the importance of hands-on, real-life applications of mathematical concepts, as well as the value of experience in working as a team to produce an output. The proficiency to work collaboratively is a learned skill, Students need recurring opportunities to practice it within a complex, high-stakes context -- similar to what they'll encounter in the community and workplace as adults.

*How did your grant project impact the children it served?*

Students are more readily able to isolate their personal worth from the quality of their work, and they're able to separate the particular aspects of their work that need improvement from those that don't , most importantly, it helps students see that the whole object of schoolwork is attainment and refinement of problem-solving and life skills."

*What were your stated goals? Did you achieve your stated goal(s)? If not, why not?*

Yes, Each part of the project is evaluated based on concept, quality, accuracy, clarity and presentation during the course of the project .

*Would you recommend these materials/techniques to be requested for other classrooms?*

*Yes definitely.*

***Please use this evaluation form when submitting your evaluation report at the end of the grant cycle.***

***Attach any pictures or data that supports the success of your program.***
